PREMIUM MODULAR FLOATING DOCK SYSTEM

Welcome to Wave Armor — the most advanced generation of modular floating dock systems. Our unique fabrication process creates a premium product integrating both unrivaled durability and functionality. Offering the quintessential resort experience right at the door of your waterfront home. Wave Armor products are formulated with only the finest materials and constructed under highest industry standards to provide our customers premium quality and performance while minimizing maintenance and showcasing modern, state of the art design. We don't stop there, with a full line of accessories offered, our modular, fully integrated dock system give virtually endless options to meet your very own needs and bring your waterfront living dream to life!

enjoy the
experience
of a **FLOATING DOCK SYSTEM**

At Wave Armor, we aim to make the most of your waterfront experience. Boats, personal watercrafts, pedalboards, kayaks and water mats as well as swimming all taken into consideration. Our modular design with fully integrated accessories make it simple to customize your dock layout to maximize use of space and make easy accessible and secure for you to enjoy your favorite on the water activities. Wave Armor has incorporated a flagstone paver style design with our patented H-Beam hidden connection system which secures beneath the dock topside creating clean, flowing and slip resistant surface. Gone are those days of concerns and injuries due to delinquent maintenance of outdated docks. We have left no stone unturned.

At Wave Armor we are dedicated to creating a dock system that conforms and enhances the experience of a waterfront lifestyle.

We have made it effortless and enjoyable to create the memories and establish the traditions that last a lifetime!

LIFE ON THE WATER everything FROM ONE SOURCE

Wave Armor premium modular dock systems are designed to be practical, timeless and comfortable. We believe that modern waterfront living isn't just a trend it's a lifestyle.

Our vision is to combine the best materials, modern design and innovative solutions to bring outstanding experiences to those who we are sharing our passion of waterfront living.

Our goal is to be a one stop source for waterfront homeowners and marinas by providing the widest variety of dock sections, boat and Jetski ports in combination with a full line of accessories!

AMAZING SOLUTIONS FOR CHALLENGING SITUATIONS

Who doesn't dream to own waterfront property, watch sunsets and enjoy all the benefits of living by the water? Tom and Jackie Clarkson found their dream lake home in the suburbs of Minneapolis. They started preparations to create the perfect space for entertaining and other activities the short Minnesota summer season offers.

After installing a new dock and finishing other beach landscape projects they looked forward to a whole summer of sharing their new lake access with family and friends. But mother nature had her own plans. Their lake home is part of a chain of water ways, high amounts of snow created above average melting run off and early spring precipitation caused flooding in most areas all along the Mississippi and other rivers. Tom and Jackie were not aware that their common style dock had limitations to water level fluctuation, so when the waters rose their perfect summer plans started floating away with their dock decking.

Fluctuating water levels has it's challenges. This dock owner weighted the decking down with blocks to keep it from floating away.

before

after

WAVE DOCK **ADVANTAGES**

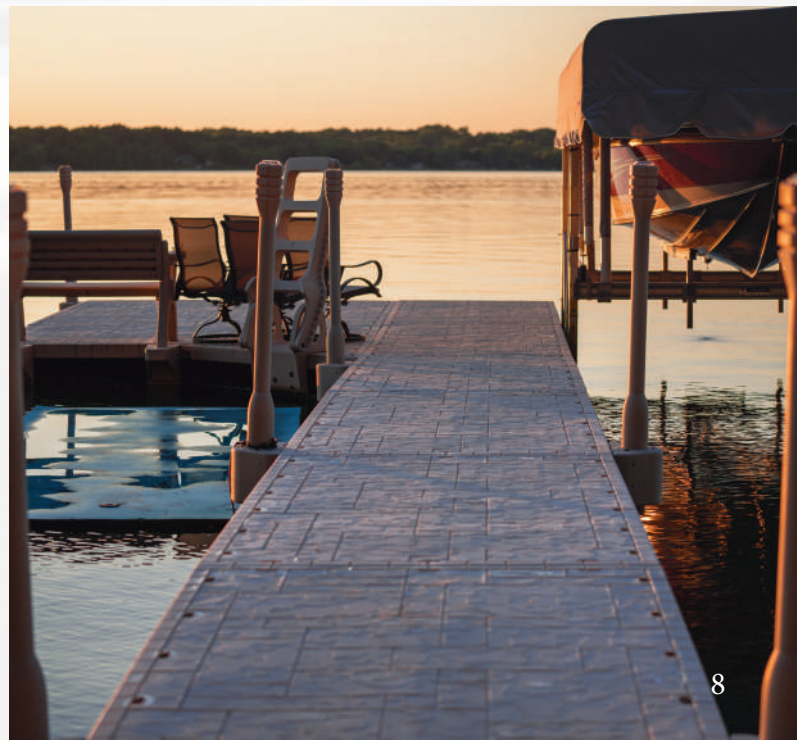

While waiting for the water to go down they researched all the dock styles available, wanting to be sure a new purchase would permanently fix the water fluctuation problem. The Wave Armor team assured Tom that they had the solution and he would get the best dock on the market. This premium floating dock system wasn't cheap but they knew a Wave Armor investment wouldn't leave them under water.

With the Wave Armor modular design and H-Beam Connection System it took only two hours to install the new dock and the Clarkson family summer was back on track.

The Clarksons also appreciate other Wave Armor advantages! Tom is protected from rising water levels but also knows he does not have to paint or replace decking as it ages. Jackie is excited about the dock's design flexibility for future expansions as they buy more water toys and smart accessories that keep things organized and beautify their lake space.

Wave Armor takes extreme pride in offering innovative products to enhance everyone's life on the water. If you have a challenging dock story have our team give you a Wave Armor solution.

A Wave Armor dock was the perfect solution.

PLAN YOUR dream dock

Use our Custom Dock Builder to customize your dream dock from your computer or tablet. Here you can layout and customize your dock, save, print and email your dock build, and even submit your very own dock build for a quote request. Our customer service team is available to help you along the way with any questions you might have.

STEP 1: SIZE AND SHAPE

Determine what size and configuration will suit your needs.

Do you need an U-Shaped, T-Shaped, L-Shaped, or Extended Surface Area? Do you have a boat? Personal Watercrafts? Kayaks, Paddle boards? How you use your dock will help determine the layout.

STEP 2: LOCATION

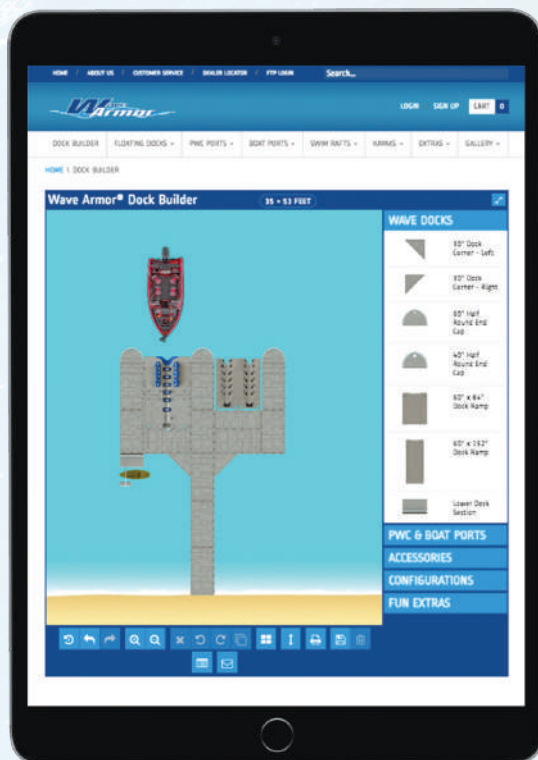

Evaluate your waterfront location's depth, bottom composition and potential for fluctuating water levels.

This will help to choose the best mounting option for your dock..

STEP 3: ACCESSORIZE

Decide which accessories will enhance your enjoyment of the waterfront life.

Wave Armor accessories create a fully integrated finished look and feel, while maximizing ease of use.

MODULAR FLOATING DOCK SYSTEM

WAVE DOCK SECTIONS

TOP TO BOTTOM BUILT TO LAST.

Solid durable surface.

The top deck features an exclusive Flagstone textured finish for low maintenance waterfront living. Durable RotoMolded polyethylene construction is built for peace of mind for years to come. Added UV stabilizing components will provide protection against fading, cracking or chipping and eliminate the need for painting or resurfacing which frees up more valuable time for fun on the water.

Easy to assemble dock sections and accessories.

Top deck attachment slots and molded-in H-Beam connection channels along the perimeter allow for attaching a wide variety of Wave Dock accessories.

Engineered to utilize the water's surface for stability. Unique recessed pockets on the bottom floats underside vacuum-seal to the water's surface providing unparalleled stability.

Built to last. Engineered with corrugated interior bottom float, filled with marine grade EPS foam for additional strength, and superior integrity creating a solid walking surface.

Even more possibilities to customize your dock with a

New 152x152-cm dock section!

WAVE DOCK CORNERS

The Wave Armor corner dock sections provide additional strength to the docks layout by connecting the inside corners of two sections and expanding overall dock square footage.

- Maximizes design options for your custom dock layout.
- Installs with a H-Beam connector

ITEM #	DESCRIPTION	DIMENSIONS	WEIGHT
300051	76-cm Wave Dock Corner	76 cm L	11 kg.
301577	152-cm Wave Dock Corner 301577 requires 127cm H-Beam Kit 300067	152 cm L	22 kg.

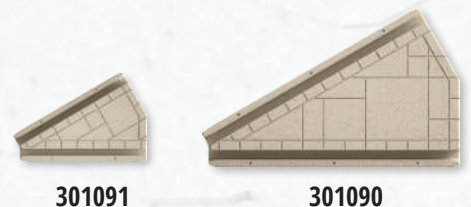

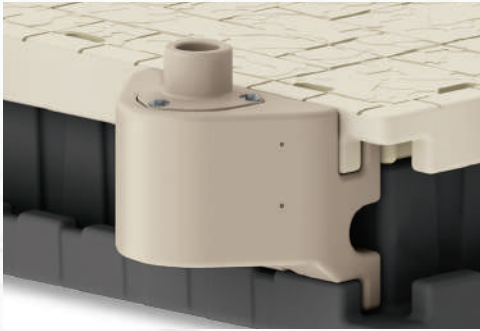

WAVE DOCK WEDGES

The Wave Armor wedge section creates a 30-degree angle allowing boat slips/piers to fan out. Saving space by narrowing footprint for multiple boat slips or for specific layout in narrow locations.

- Installation is H-Beam channel ready

ITEM #	DESCRIPTION	DIMENSIONS	WEIGHT
301091	101-cm Wave Dock Wedge	101 cm L	25 kg.
301090	152-cm Wave Dock Wedge	152 cm L	36 kg.

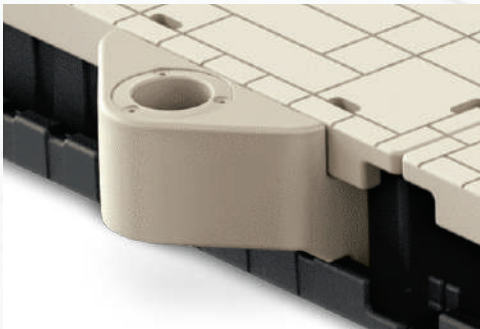

UTILITY CHANNEL POST BRACKET KIT

Designed to allow utility wires and cords to be safely stored behind the bracket.

- Easily slides into H-Beam channel
- Each kit includes 2 Post brackets, 2 sleeves and hardware

ITEM #	DESCRIPTION	INCLUDES
301608	2-inch (inner measure 63mm) Raised Utility Post Brackets	2
301609	3-inch (inner measure 92mm) Flush Utility Post Brackets	2
301610	4-inch (inner measure 121mm) Flush Utility Post Brackets	2

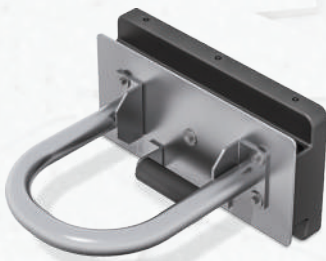

HEAVY DUTY DOCK POST BRACKET KIT

This heavy duty bracket secures dock posts to the Wave Dock System by sliding into the H-Beam channel. The best choice for mounting in tougher water conditions

- Each kit includes 2 Post brackets, 2 sleeves and hardware

ITEM #	DESCRIPTION	INCLUDES
301526	2-inch (inner measure 63mm) Raised HD Post Brackets	2
301527	3-inch (inner measure 92mm) Flush HD Post Brackets	2
301528	4-inch (inner measure 121mm) Flush HD Post Brackets	2

PYLON HOOP ATTACHMENT KIT

Aluminum rust proof construction hoop secures the Wave Dock to a 10" pylon.

- Simple H-Beam channel installation
- Includes one 55 x 40 x 25 cm kit

ITEM #	DESCRIPTION
300106	10-inch Aluminum Pylon Hoop Kit

ANCHOR CAP MOORING KIT

An alternative to pipe mounting, the anchor cap mooring kit is a secure attachment point for submersive anchor chain or cable.

- Simple H-Beam channel installation
- Includes 1 Attachment and 1 Anchor Cap

ITEM #	DESCRIPTION	INCLUDES
300493	Anchor Cap Mooring Kit	1

ANCHOR PIN MOORING KITS

The top adjusting mooring kit provides a secure attachment point for a submersive anchor chain.

- Includes 1 Dock Post Attachment and 1 Anchor Pin (chain not included)

ITEM #	DESCRIPTION	INCLUDES
301336	Heavy Duty Anchor Pin Mooring Kit	1

Covering unattractive support pipes and adding an elegant touch, our three over-the-pipe and one decorative post cover models dramatically changes a docks overall appearance. Featuring top recessed pockets for attaching a Wave Armor Solar Light (sold separately)

DOCK WHEEL LOCKING COLLAR

Slides over any 38 mm. axle/pipe

ITEM #	DESCRIPTION	INCLUDES
300085	Dock Wheel Locking Collar	1

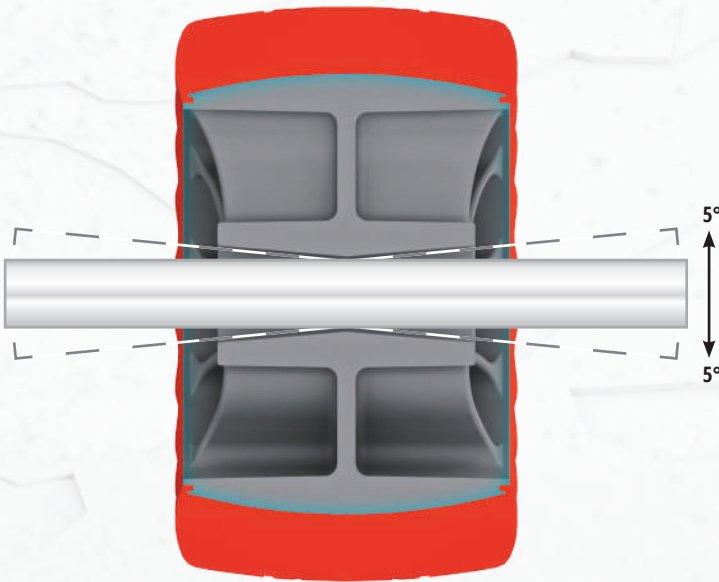

New the **WHEEL** **reinvented!**

This NEW ultimate game changing, innovative wheel design brings docking to a whole other level!

- Tapered axle hole allows wheel to “float” and self-adjust an extra 5 degrees each way.
- Shock absorbing patent pending design
- Soft surface and slight arch of the wheel shape guarantees smooth performance.
- Wide wheel provides more weight distribution.

Extremely soft and forgiving wheel material will protect boat hull from scratches and adapt to specific shape of the boat hull including side ribs.

301347	Apex A5/A6 & Sport to Wave Dock Kit	2

EVO APEX TO FLOATING DOCK KIT

This universal galvanized c-channel (for all Apex and Sport Series Jetski ports) connection bracket provides an easy mount to other floating docks and structures.

ITEM #	DESCRIPTION	INCLUDES	SIZE
301360	Apex A5/A6 & Sport to Floating Dock Kit	2	C-Channels 65cm

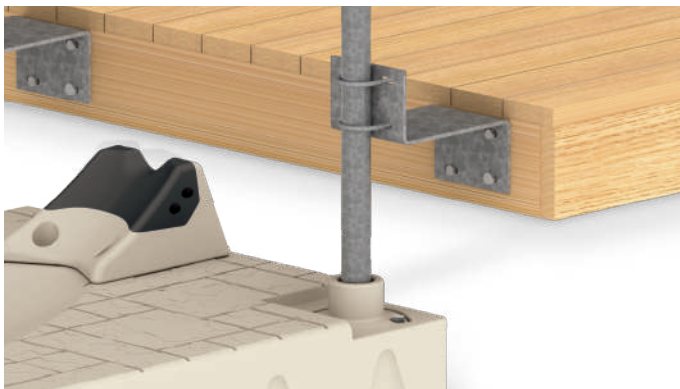

SLX™ PORT TO FLOATING DOCK KIT

Two heavy duty poly brackets connect together, creating a receiver that attaches to the galvanized c-channel for securing to any floating dock structure.

ITEM #	DESCRIPTION	INCLUDES	SIZE
301308	SLX™ Port to Floating Dock Kit	2	50cm C-Channels
301309	SLX™ Port to Floating Dock Kit	2	65cm C-Channels

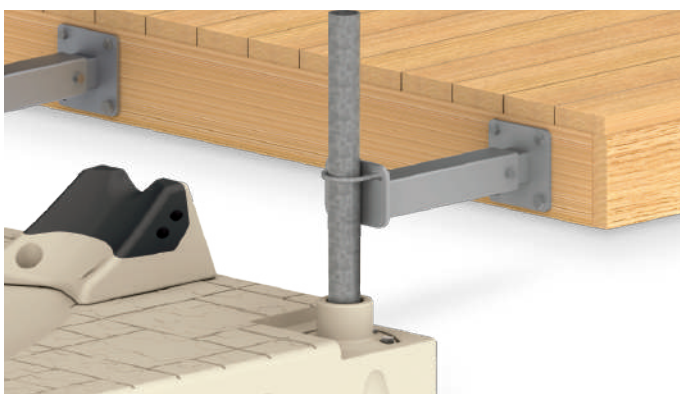

PORT TO FIXED DOCK KIT

Galvanized steel z-bracket with u-bolt secures port to a fixed dock or sea wall allowing for free movement in fluctuating waters.

- Requires 2" or 4" pipe sleeves, sold separately.

ITEM #	DESCRIPTION	INCLUDES	SIZE
301281	Port to Fixed Dock Kit	2	2-inch Pipe (inner measure 63mm)
301282	Port to Fixed Dock Kit	2	4-inch Pipe (inner measure 121mm)

TELESCOPING PORT TO FIXED DOCK KIT OR SEA WALL

Fastened to fixed docks the telescoping bracket adjusts horizontally 40cm – 60cm allowing space between dock and port. Pipes secure to these brackets with u-bolts and feed through poly sleeves allowing the port to move freely in fluctuating water levels.

- Includes 2-adjustable aluminum brackets, 2-u-bolts and hardware
- Requires 2" or 4" pipe sleeves, sold separately.

ITEM #	DESCRIPTION	INCLUDES	SIZE
301434	Telescoping Port to Fixed Dock Kit	2	2-inch Pipe (inner measure 63mm)
301435	Telescoping Port to Fixed Dock Kit	2	4-inch Pipe (inner measure 121mm)

PORT TO PORT CONNECTOR

Used to connect multiple ports together for added stability to docking platform.

ITEM #	INCLUDES
300046	2 Pin Systems

SNAP-IN CAP

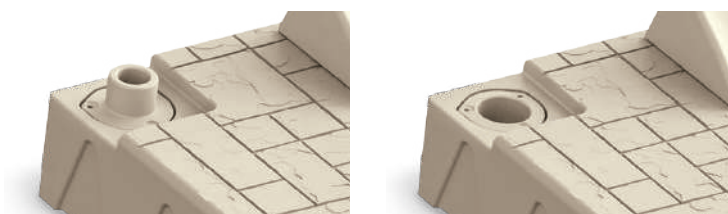

Covers unused mounting pockets

- Fits: Apex A5/A6, SLX 5/6

ITEM #	INCLUDES
300116	2

PIPE SLEEVES

Replaceable pipe sleeves accommodate 2" and 3" pipes and are engineered to absorb the everyday wear and tear associated with pipe mount installations.

ITEM #	DESCRIPTION	INCLUDES	SIZE
300103	Pipe Sleeve - Raised	2	2-inch Pipe (inner measure 63mm)
301011	Pipe Sleeve - Flush	2	3-inch Pipe (inner measure 92mm)
300041	Pipe Sleeve - Flush	2	4-inch Pipe (inner measure 121mm)

SIDE EXTENSION KIT

If you are looking to add extra walking room but don't have enough space for a full dock section, the side extension kit is the perfect solution.

- The best choice for limited spaces
- Adds 56 cm width to either side of the port
- Utilizes the unused mounting pockets

ITEM #	DESCRIPTION	INCLUDES	SIZE
300115	Side Extension Kit	1	56-cm

GENESIS BOAT PORTS
THE DEFINITION OF
HASSLE FREE DOCKING

Best in class drive on/drive off boat port
for boats range 680 to 1.633 kg.

New

EVOLUTION SERIES

GENESIS BOAT PORTS

Tie down cleat

**NO ELECTRICITY, NO PUMPS,
NO HYDRAULICS, NO HASSLE!**

100% filled with marine grade EPS foam

Extremely durable RotoMolded shell

Maintenance free high density polyethylene

Aluminum attachment pins and Stainless Steel hardware

Flagstone non slip surface

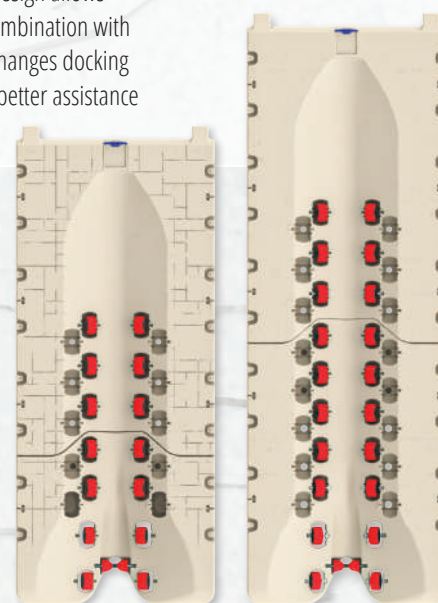

Wheel information
on page 28.

In the pursuit of perfection and innovation Wave Armor created: Genesis

The Genesis takes it all to the next level. It's another step above existing boat ports in the boat docking industry!

Engineered like no other the Genesis port is 2 piece design allows freedom of movement for (entrance) tail section in combination with new extra wide shock absorbing wheel dramatically changes docking experience. Self-Articulating section design provides better assistance during on/off loading process.

Created for boats in range between 680 kg and 1.633 kg Genesis port can expand weight capacity up to 408 kg utilizing buoyancy boosters that can be located in multiple locations (more info on pg 44). Engineered with molded in large wheel pockets accommodating 15 cm and 20 cm wheel and guiding entrance roller for loading on assistance. Comes in 2 sizes 490 cm and 610 cm for different length boats. Interchangeable accessories and attachment kits with mounting options available for every fixed or floating dock application makes it the best choice for hassle free boat docking.

EXTREME BOAT PORTS
PERFECTION IN

PERFORMANCE

NO AIR ASSIST! NO HYDRAULICS! NO ELECTRICITY! NO HASSLE!
Highly customizable design for perfect fit and performance.

Welcome to hassle free boat docking!

Results of years of engineering and testing – Extreme X24 is the best Drive On/Drive Off boat port that once again sets a new standard in the boat docking industry. Designed to accommodate a wide range of boats from 7 to 9,7 meter long and up to 3.628 kg of weight capacity.

This port features 2 styles of adjustable bunks and a new shock absorbing roller system to provide unmatched docking performance. Additional loading support provided by entrance roller to insure comfortable docking. Highly customizable bunks design allows for a large variety of boat styles, including fishing boats, skiffs, jet, jon and bay boats.

Set up and installation now simplified with new molded-in mounting options. See pages 43-46.

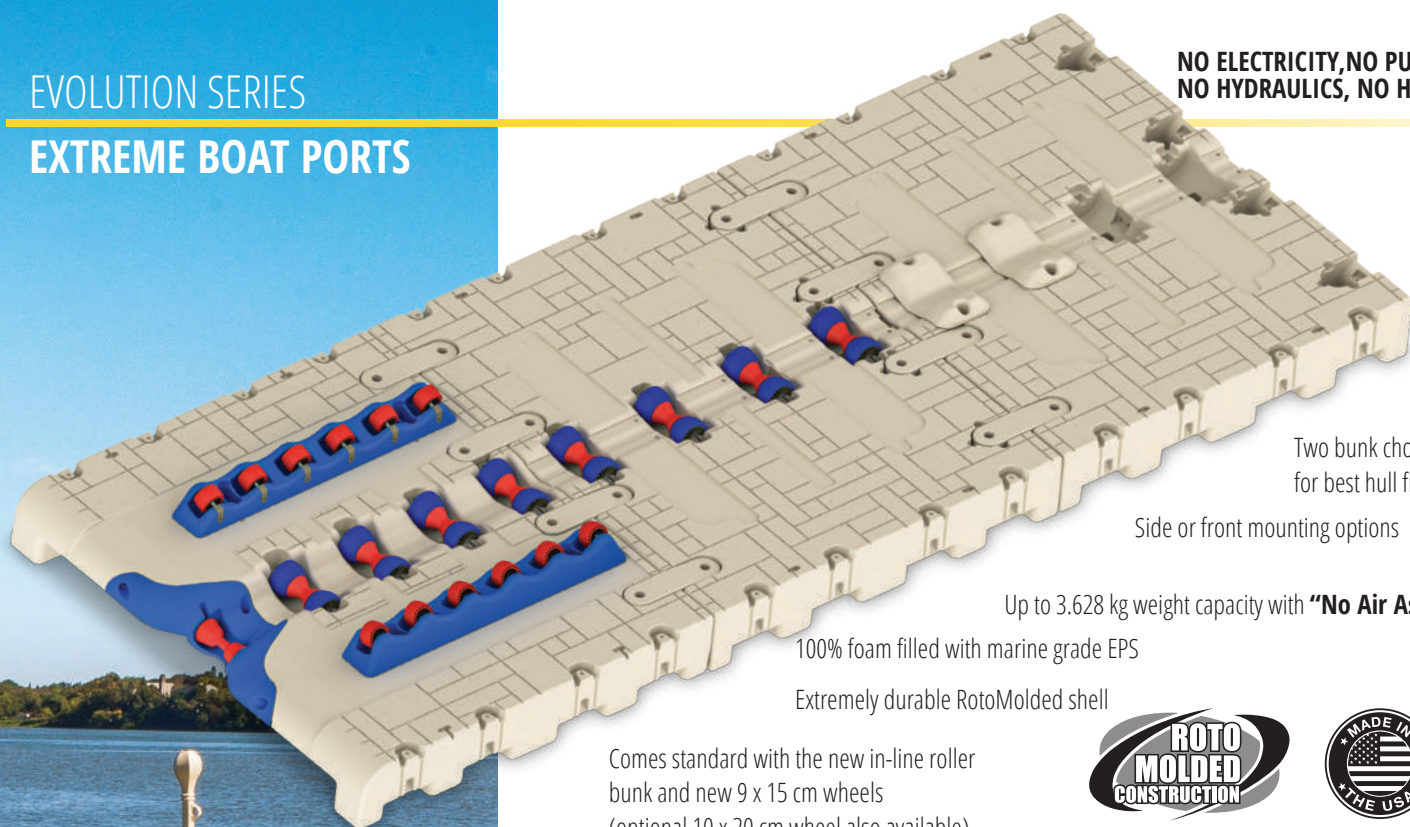

More buoyancy may be added to the entrance section up to 544 kg, depending on your motor package. More info on page 44.

EVOLUTION SERIES

EXTREME BOAT PORTS

**NO ELECTRICITY, NO PUMPS,
NO HYDRAULICS, NO HASSLE!**

Two bunk choices
for best hull fit

Side or front mounting options

Up to 3.628 kg weight capacity with **"No Air Assist"**

100% foam filled with marine grade EPS

Extremely durable RotoMolded shell

Comes standard with the new in-line roller
bunk and new 9 x 15 cm wheels
(optional 10 x 20 cm wheel also available)

Multiple mounting options available for
any fixed or floating dock.
More information on page 43-46.

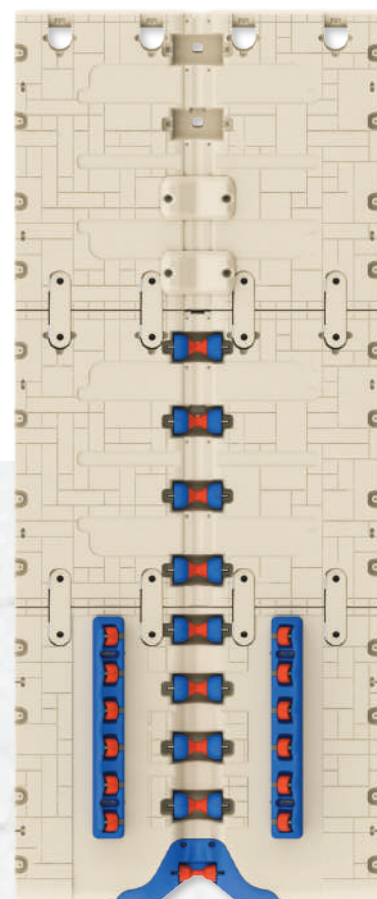

New

OSCILLATING WHEEL BUNK

This innovative new bunk with oscillating axle/wheel assembly provides better self-alignment while docking. Double lined wheels creating more surface for weight distribution and reducing stress on the boat hull.

- Provides support and better alignment for deeper V hulls.

ITEM #	DESCRIPTION	INCLUDES
301876	Oscillating Wheel Bunk	2

301099

ITEM #	DESCRIPTION	DIMENSIONS	WEIGHT	WEIGHT CAPACITY
301099	Extreme X24 Boat Port	305cm W x 730cm L	680 kg	3.628 kg

New GENESIS BOAT PORTS TO WAVE DOCK KITS

This heavy duty kit allows you to connect a boat port fast and easy with our direct connect H-Beam channel system. This hinged connection system provides movement during wave action.

- Hardware included

ITEM #	DESCRIPTION	INCLUDES
301858	Genesis to Wave Dock Kit	2

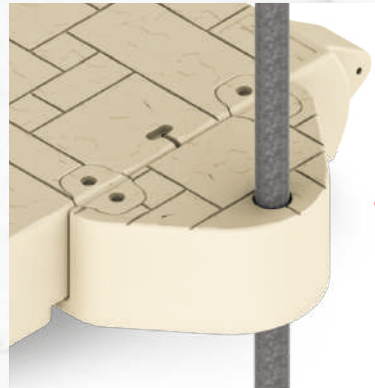

New GENESIS TO FLOATING DOCK KIT

This universal c-channel bracket connects boat port to any floating dock or structure simple and fast.

- Hardware included

ITEM #	DESCRIPTION	INCLUDES	SIZE
301857	Genesis to Floating Dock Kit	2	65 cm C-Channels

2 1/2" PIPE ATTACHMENT KIT

This brackets allow the boat port to be free standing and self adjust to fluctuating water levels.

- Recommended for as standard, calmer waters such bay or canals

New 3 1/2" PIPE ATTACHMENT KIT

Heavy duty version of standard post attachment allows the boat port to be free standing and self-adjusting to fluctuating water levels in rougher water conditions.

ITEM #	DESCRIPTION	INCLUDES	SIZE
301859	Genesis/Extreme Post Attachment Kit	2	2.5-inch Pipe Mount
301945	Genesis/Extreme Post Attachment Kit	2	3.5-inch Pipe Mount

New SIDE HINGE MOUNT TO WAVE ARMOR DOCK OR FIXED DOCK

This poly hinge mount allows ports be mounted direct to Wave Armor or any fixed dock with self-leveling side extension arm.

- Adjustable extension arm from 40 - 61 cm

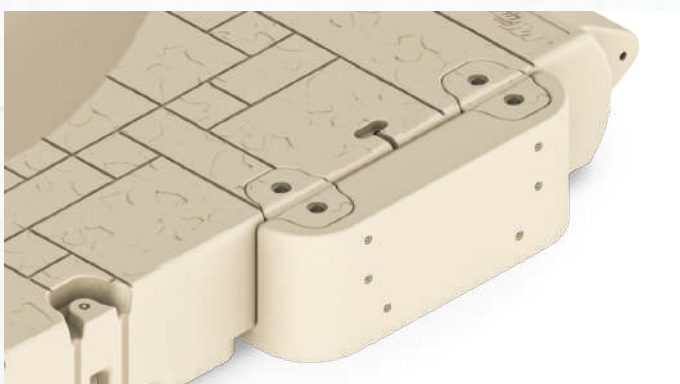

ITEM #	DESCRIPTION	INCLUDES
301965	Genesis/Extreme Side Hinge Mount	2

New PYLON HOOP ATTACHMENT KIT

These 9" and 11" pylon bracket are constructed of heavy duty polyethylene plastic attaches to new or existing pylons.

ITEM #	DESCRIPTION	INCLUDES	SIZE
301966	9" Poly Pylon Hoop Attachment Kit	1	Fits an 8" Pylon
301967	11" Poly Pylon Hoop Attachment Kit	1	Fits a 10" Pylon
302009	13" Poly Pylon Hoop Attachment Kit	1	Fits a 11" Pylon

New UNIVERSAL SIDE MOUNT PLATE

Alternative to front mounting, this side mount plate is an additional option for securing ports to existing dock or sea wall.

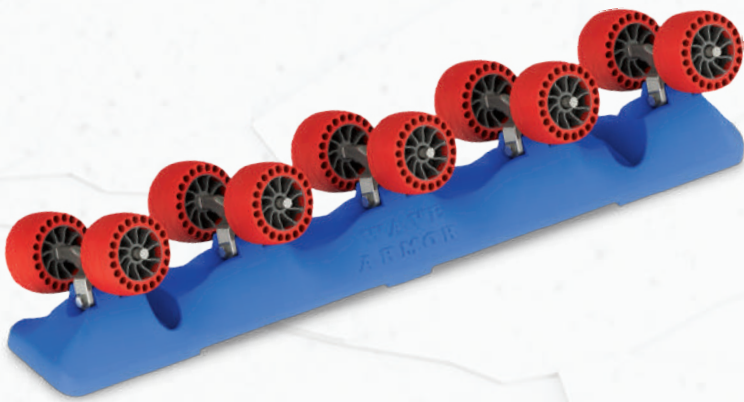

ITEM #	DESCRIPTION	INCLUDES
301964	Universal Side Mounting Plate	2

New GENESIS/EXTREME BUOYANCY BOOSTER

Buoyancy boosters expand the port weight capacity 136 to 544 kg. Attached in the rear section of the port in the multiple locations build into ports underside to adjust different motor packages.

ITEM #	DESCRIPTION	INCLUDES	SIZE
301823	Genesis/Extreme Buoyancy Booster	2	46 x 46 x 31 cm

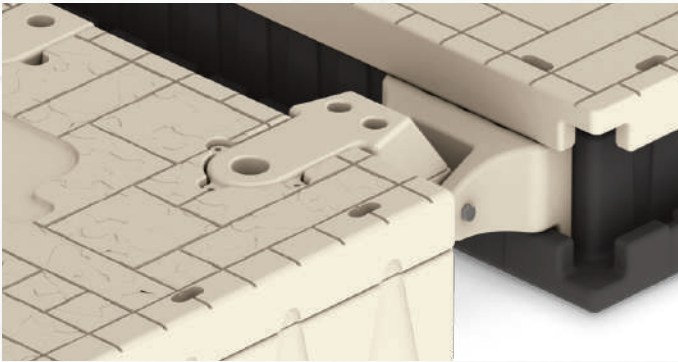

New EXTREME X24 OSCILLATING WHEEL BUNK

This innovative new bunk with oscillating axle/wheel assembly provides better self-alignment while docking. Double lined wheels creating more surface for weight distribution and reducing stress on the boat hull.

- Provides support and better alignment for deeper V hulls.

ITEM #	DESCRIPTION	INCLUDES
301876	Oscillating Wheel Bunk	2

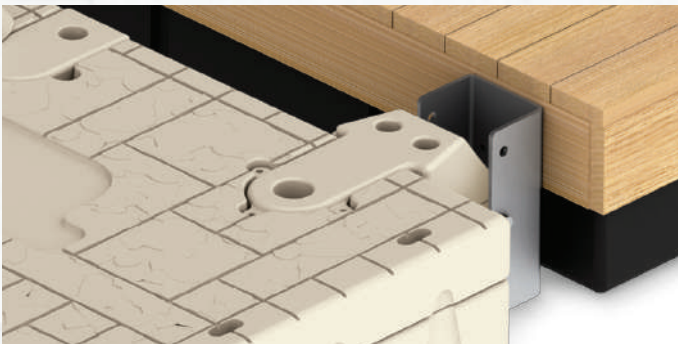

EXTREME X24 TO WAVE DOCK KIT

This heavy duty kit allows you to connect a boat port fast and easy with Wave Armor direct connect H-Beam channel system. This hinged connection system provides movement during wave action.

- Hardware included

ITEM #	DESCRIPTION	INCLUDES
301346	Extreme X24 to Wave Dock Kit	2

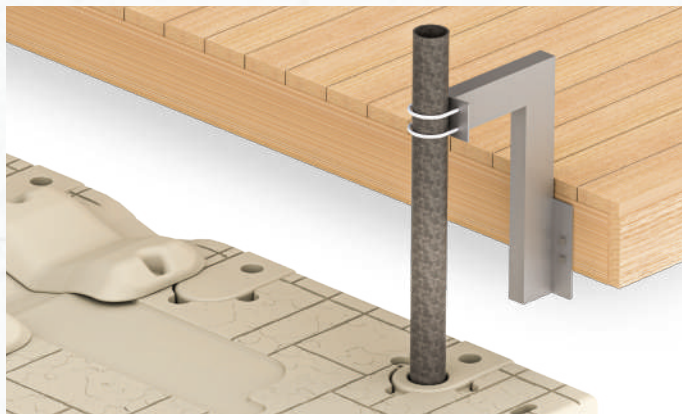

EXTREME X24 TO FLOATING DOCK KIT

Connects the Extreme X24 boat port to any floating dock while keeping the boat port close to the dock.

ITEM #	DESCRIPTION	INCLUDES
301329	Extreme X24 to Floating Dock Kit	2

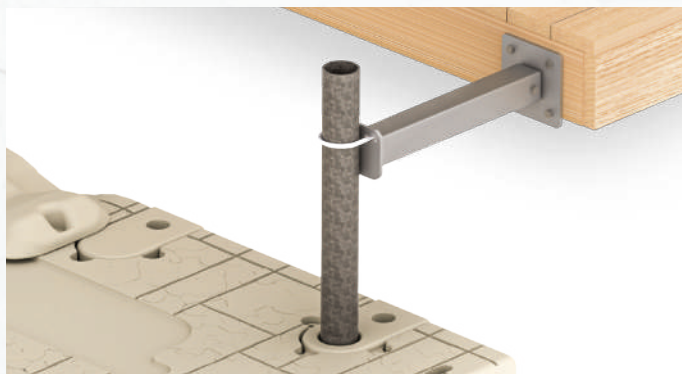

EXTREME X24 RAISED PIPE MOUNT TO FIXED DOCK KIT

This heavy duty aluminum L-bracket kit allows you to mount the Extreme X24 boat port to a low profile fixed dock (non-floating), yet allows the boat port to rise up and down with the changing water levels.

ITEM #	DESCRIPTION	INCLUDES	SIZE
301411	Extreme X24 Raised Pipe Mount	2	2-inch Pipe (inner measure 63 mm)
301412	Extreme X24 Raised Pipe Mount	2	4-inch Pipe (inner measure 121 mm)

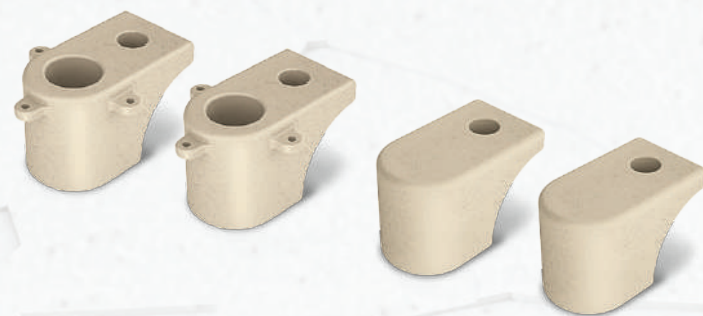

TELESCOPING PIPE MOUNT EXTREME X24 TO FIXED DOCK KIT

Adjusts horizontally 61 – 106,7 cm allowing space between dock and port. Allows the Extreme X24 port to move freely in fluctuating water levels.

- Includes 2 - adjustable aluminum brackets, 2-u-bolts and hardware
- Requires 2" or 4" pipe sleeves, sold separately.

ITEM #	DESCRIPTION	INCLUDES	SIZE
301409	Telescoping Port to Fixed Dock Kit	2	2-inch Pipe (inner measure 63 mm)
301410	Telescoping Port to Fixed Dock Kit	2	4-inch Pipe (inner measure 121 mm)

EXTREME X24 PIPE SLEEVE & FRONT PLUG KITS

ITEM #	DESCRIPTION	INCLUDES	SIZE
301746	Extreme X24 2" Pipe Sleeves	2	2-inch Pipe (inner measure 63 mm)
301747	Extreme X24 3" Pipe Sleeves	2	3-inch Pipe (inner measure 92 mm)
301748	Extreme X24 4" Pipe Sleeves	2	4-inch Pipe (inner measure 121 mm)
301749	Extreme X24 Front Plug Kit	2	—

OTTER ISLAND SWIM RAFT

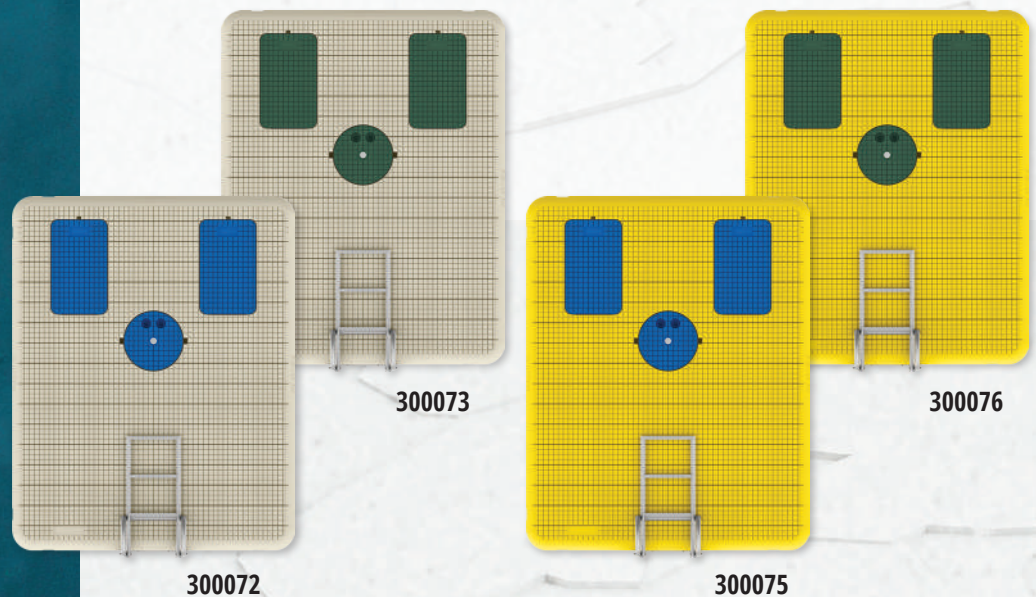

Adjustable backrests and pop-up table with beverage holders and umbrella hole.

Non-slip surface and pontoon-style bottom for stability.

RotoMolded construction resists fading, rusting and cracking.

ITEM #	DESCRIPTION	COLOR BODY/SEAT BACK & TABLE	DIMENSIONS IN CM	WEIGHT CAPACITY
300072	Otter Island Swim Raft	Beige/Blue	244 W x 305 L	1360 kg.
